3. INTRODUCTION

3.1 Business History

Kongwa Services is a private company which started as a sole trading in 2008 and was later in 2012 registered as a private company by Mr. Stan Masinga. This business originated from Stan's passion for electrical construction at a reasonable and affordable price to communities and other SME's. Shortly our business escalated to sub-contracting Eskom service provider Rethuseng Live Line and Services. Now proudly provide electrical services to South32 SA Coal Holdings and City of Tshwane amongst others.

3.2 What we do

Kongwa Services is the fastest growing electrical engineering company in the Middleburg area with deeper knowledge expertise in overhead line construction and maintenance. Low, medium and high voltage construction and maintenance. The company sells these services at the lower price than competitors while providing a higher quality with customised contract specification.

Kongwa services also focus on electrical engineering works that are primarily concerned with development, extension, installation, removal, renovation, alteration or dismantling of infrastructure relating to the generation, transmission and distribution of electricity.

3.3 Services

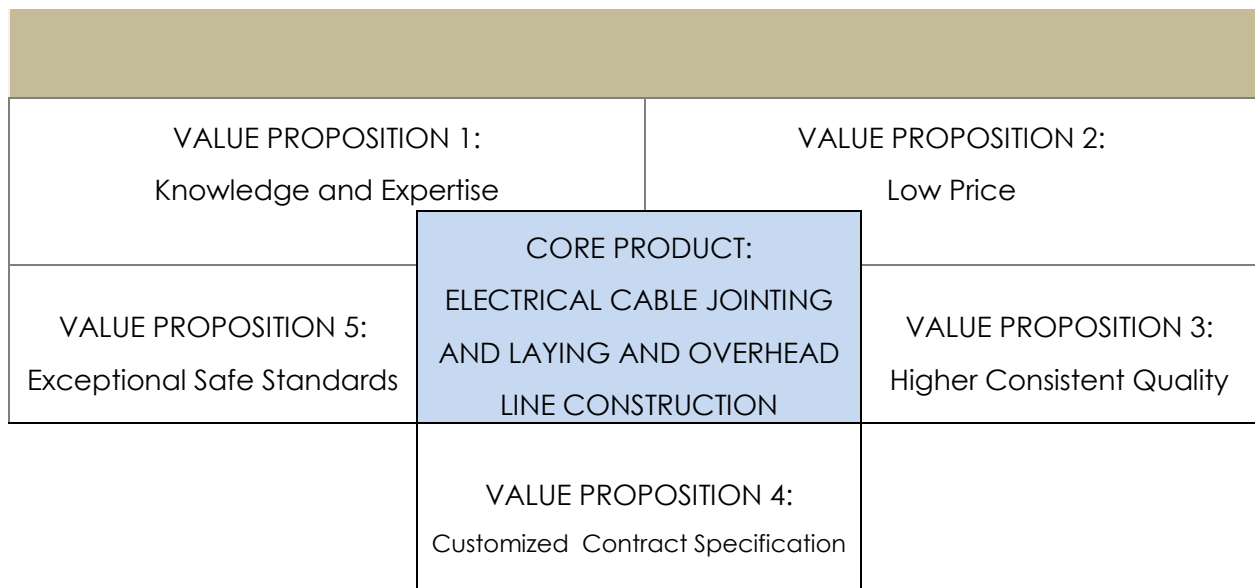

3.2.1 Street and area lighting.

3.2.2 Substations and protection systems.

3.2.3 Township reticulations.

3.2.4 Transmission lines.

3.2.5 Power generation.

4. UNIQUE VALUE PROPOSITION

5. BUSINESS STRATEGY

5.1 Vision statement

To be recognised as the most customer focused electrical service provider.

5.2 Mission statement

To provide well designed solutions in consultation with clients and respond to their support needs in a timely and courteous manner.

5.3 Values

Commitment and action leading to meeting customer needs;
Openness, trust and respect in dealing with people;
Achievement of superior results.

5.4 Business objectives

To form part of companies which contribute positively to the growth of the country and create sustainable jobs

6. BUSINESS CONCEPT:

6.1 Products

6.1.1 Distribution Transformers

6.1.2 Outdoor distribution cut outs assemblies

6.2 Basic work types

Electrical power generation, transmission, control and distribution equipment and systems.

6.3 Business competitiveness

We offer a comprehensive range of electrical products and services which can be sourced effortlessly. We are brand agnostic therefore whatever your business needs are, we would definitely deliver it for you in the electrification sector.
